6" to 19" Flat Panel Monitors

15" Monitor - XGA TFT display

Sophisticated scaling engine produces excellent full screen images in all common VESA modes automatically
Analog resistive touchscreen with both USB and serial drivers (only one at a time)
Shallow mounting, only 2.85" deep
Powder coated aluminum front bezel
Provision for 75mm VESA mounting arm on back

[5015T/R2 DATASHEET](#)

15" Monitor - XGA TFT display

Stainless steel chassis with NEMA4/IP65 compliant aluminum front panel
High luminance up to 350 cd/m²
Auto recognition of input signal
Supports rack, panel, wall mount, VESA mounts and desktop stands

[FPM-3150G DATASHEET](#)

17" Monitor - XGA TFT display

VGA and DVI inputs
Stainless steel chassis with NEMA4/IP65 compliant aluminum front panel
High luminance up to 350 cd/m²
Auto recognition of input signal
Supports rack, panel, wall mount, VESA mounts and desktop stands
Multi-signal input supports VGA, DVI-D, Video and S-Video signals

[FPM-3171 DATASHEET](#)

17" Monitor - SXGA TFT display

Sophisticated scaling engine produces excellent full screen images in all common VESA modes automatically
Optional analog resistive touchscreen with both USB and serial drivers (only one at a time)
Shallow mounting, only 2.9" deep
Optional stainless steel bezel
Provision for 100mm VESA mounting arm on back
Provision for mounting node PC on back

[5017T DATASHEET](#)

19" Monitor - SXGA TFT display

Sophisticated scaling engine produces excellent full screen images in all common VESA modes automatically
Optional analog resistive touchscreen with both USB and serial drivers (only one at a time)
Shallow mounting, only 2.85" deep
Optional stainless steel bezel
Provision for 100mm VESA mounting arm on back
Provision for mounting node PC on back
